

SpirePoint Private Client, LLC

Form CRS - Customer Relationship Summary

January 1, 2026

Introduction

SpirePoint Private Client, LLC ("SpirePoint" or "The Firm") is registered with the Securities and Exchange Commission (SEC) as an investment adviser. This document gives you a summary of the types of services we provide and how you pay. Please ask us for additional information.

We provide advisory accounts and services rather than brokerage accounts and services. Brokerage and investment advisory services fees can differ, and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at Investor.gov/CRS, which also provides educational materials about broker-dealers, investment advisers, and investing.

Relationships and Services

What Investment Services and Advice Can You Provide Me?

SpirePoint offers investment advisory services to retail investors, including investment management services, financial planning, consulting services, and portfolio management by independent managers and sub-advisors.

If you retain our firm for investment management services, you will pay an ongoing asset-based fee at the end of each month, in advance, for our services, based on the value of the cash and investments in your advisory account. At the beginning of our advisory relationship, we will meet with you in person or otherwise by phone and/or computer to determine your investment objectives, risk tolerance, and other relevant information. We will use this information to develop a strategy that enables our firm to give you continuous and focused investment advice and/or to make investments on your behalf. Once we construct an investment portfolio for you, we will monitor and rebalance your portfolio's performance on an ongoing basis. If you participate in our discretionary investment management services, the authorization will allow us to manage your account regarding the purchase and/or sale of investments without your approval prior to each transaction until the termination of our agreement. You may limit our discretion by providing our firm with your restrictions and guidelines in writing. If you enter into a non-discretionary arrangement with our firm, you are required to make the ultimate decision regarding the purchase and/or sale of investments, and we must obtain your approval prior to executing any transactions on behalf of your account.

The Firm offers financial planning services, which typically involve providing a variety of advisory services to clients regarding the management of their financial resources based on an analysis of their individual needs. If you retain our firm for financial planning services, we will meet with you to gather information about your financial circumstances and objectives and make investment allocation recommendations based on your investment profile. You will be responsible for implementing our investment advice.

The Firm offers retirement consulting services to employee benefit plans and their fiduciaries based on the needs of the plan and the services requested by the plan sponsor or named fiduciary. These services may include an existing plan review and analysis, plan-level advice regarding fund selection and investment options, education services to plan participants, investment performance monitoring, and/or ongoing consulting. These consulting services will generally be non-discretionary and advisory in nature, meaning you make the ultimate decision regarding the purchase and/or sale of investments.

The Firm offers investment advisory services with a large selection of investments to individuals, trusts, estates, charitable organizations, corporations, and other business entities.

In general, the Firm does not require a minimum asset to open and maintain an advisory account.

- *How will you choose investments to recommend to me?*
- *What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?*

Fees, Costs, Conflicts, and Standard of Conduct

What Fees Will I Pay?

For investment management services, you will be charged an ongoing management fee based on the assets under management in accordance with the fee schedule presented in your agreement. Fees are typically charged monthly, in advance, based on the value of your account on the last day of the previous period. The asset-based fee reduces the value of your account and will be deducted from your account. Our current fee schedules are described in our Form ADV Part 2.

Investment management clients generally pay a tiered management fee ranging up to 2%, depending on the size of the account. At our discretion, we may combine the account values of family members living in the same household to determine the applicable advisory fee. Combining account values will increase your total assets under management, which may result in your paying a reduced advisory fee percentage. Although the effective management fee rate will decrease the larger your account, the total management fees you will pay will

likely increase as you increase the total amount of assets under our management, and therefore, we generally have an incentive to encourage transferring or depositing additional assets into your account.

Other fees and costs may include custodian fees and account maintenance fees. You will pay a separate fee, in addition to the fees charged by SpirePoint, for any independent managers and/or sub-advisors that the Firm may invest your assets with. Some investments (such as mutual funds) impose additional fees that will reduce the value of your investment over time. Also, with certain investments, such as variable annuities, you may have to pay fees such as “surrender charges” to sell the investment.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

For additional information, please see SpirePoint’s ADV at www.adviserinfo.sec.gov (Part 2A brochure, Item 5).

- *Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money, and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our own interests ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

- Certain of the Firm’s Supervised Persons are licensed insurance agents and may offer certain insurance products on a fully disclosed basis. A conflict of interest exists to the extent that the Firm recommends the purchase of insurance products where its Supervised Persons may be entitled to insurance commissions or other additional compensation. The Firm has procedures to ensure that all recommendations are made in its client’s best interest, regardless of any such affiliations.
- Certain of the Firm’s Supervised Persons are registered representatives of Purshe Kaplan Sterling Investments, Inc. and may provide clients with securities brokerage services under a separate commission-based arrangement. A conflict of interest exists to the extent that the Firm recommends purchasing or selling securities where its Supervised Persons receive commissions or other additional compensation due to the Firm’s recommendation.

For additional information, please see SpirePoint’s ADV at www.adviserinfo.sec.gov (Part 2A brochure, Item 10).

How do your financial professionals make money?

Our financial professionals are paid a salary plus discretionary bonuses based on company, team, and individual performance, which includes metrics like client retention and referrals, and because the firm’s salaries are ultimately derived from revenue the firm earns from the financial professional’s advisory services or recommendations.
