

Rising Childcare costs are a major economic issue.

Many families in Indian River County cannot afford quality childcare yet do not qualify for financial support to assist with these rising costs. Childcare Resources has stepped in to help the community. Built on a strong foundation, this organization knows what it takes to prepare children not only for kindergarten but also for life. Support goes beyond education for children. Recognizing the need to set these children up for future success, Childcare Resources takes a holistic approach. That means providing support for the families as well as the children. To do this, they provide assistance with housing, work issues and mental health services.

Their mission is clear, “to elevate and promote the highest quality early childhood development and education in Indian River County, focusing on economically challenged children and families.”

They accomplish this with courage, compassion, resilience, integrity and by fostering relationships. We at SpirePoint personally want to thank Childcare Resources for supporting the children in our community who need it most. Make a gift. Change a life.

Childcare Resources.
For Families. For Educators.
For the Future.
